

1. Speed Dial

Speed dialing is a functionality that allows you to define a speed dial code for a long numbers, such as international numbers. By dialing the speed dial code, the corresponding destination number will be dialed for you.

In order to define speed dialing numbers, you should first choose a speed dial number length, i.e. the number of digits you wish your speed dial codes to be. Once this number is selected, all speed dialing codes should comply with this length.

The screenshot shows the 'Speed Dial' management page in the Voicebuy portal. At the top, there's a navigation bar with icons for various services. Below it, a 'Speed Dial' section is highlighted. A message says 'Added successfully'. Below that, there's a table with the following data:

Abbreviated Number Length 2			
Speed Dial Number	Destination Number	Description	Action
12	820128	Home	
56	290138	Office	

How to define Abbreviated Number Length:

Insert the speed dial number length in the **Abbreviated Number Length** field and press **Add**. Now you may create speed dialing numbers.

How to change Abbreviated Number Length:

Note: This functionality is available when there are no speed dialing rules defined. If speed dialing rules are added and you wish to adjust the abbreviated number length, first delete the rules.

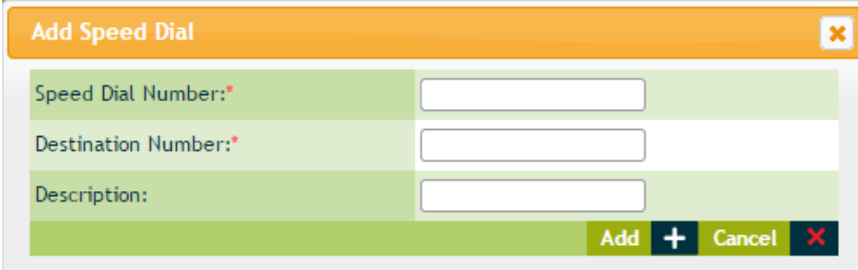

If you wish to change the speed dial number length, enter the new length in the **Abbreviated Number Length** field and pressing **Change** button.

How to Add Speed Dialing Codes:

Press  button to create new Speed Dial record. In the opened window, provide:

- **Speed Dial Number** – this is the code to be dialed for activating the speed dial.

- **Destination** – the number to be dialed when using the corresponding speed dial code.
- **Description** – an optional description about the speed dial record. You may insert here “Home”, “Work”, “Mom”, etc.

The screenshot shows a web form titled "Add Speed Dial" with a close button (X) in the top right corner. The form contains three input fields: "Speed Dial Number:" (required), "Destination Number:" (required), and "Description:". At the bottom right, there are two buttons: "Add +" and "Cancel X".

Add Speed Dial	
Speed Dial Number:*	<input type="text"/>
Destination Number:*	<input type="text"/>
Description:	<input type="text"/>
Add + Cancel X
